# Second Quarter 2025 Financial Results

Readers are referred to the sections Non-IFRS Financial Measures and Forward-Looking Statements later in this release. All figures are expressed in Canadian dollars unless otherwise noted.

**Montréal, Quebec, August 7, 2025** – Power Corporation of Canada (Power Corporation or the Corporation) (TSX: POW; POW.PR.E) today reported earnings results for the three and six months ended June 30, 2025.

## Power Corporation

Consolidated results for the period ended June 30, 2025

### HIGHLIGHTS

#### POWER CORPORATION

- Net earnings from continuing operations<sup>1</sup> for the second quarter of 2025 were \$772 million or \$1.20 per share<sup>2</sup>, compared with \$730 million or \$1.12 per share in the second quarter of 2024. Adjusted net earnings from continuing operations<sup>1,3,4</sup> were \$883 million or \$1.38 per share, compared with \$739 million or \$1.14 per share in the second quarter of 2024.
- Adjusted net asset value per share<sup>3</sup> was \$64.76 at June 30, 2025, compared with \$60.44 at December 31, 2024. Book value per share<sup>5</sup> was \$35.90 at June 30, 2025, compared with \$35.56 at December 31, 2024.
- Power group's interest in Wealthsimple, held collectively with IGM Financial and Portage Ventures I, was valued at \$2.7 billion, an increase of 21% in the second quarter<sup>6</sup>, reflecting Wealthsimple's strong business performance and an increase in peer multiples. The Corporation's direct investment, valued at \$997 million, was reflected in the second quarter adjusted net asset value.
- The Corporation purchased for cancellation 4.4 million subordinate voting shares for a total of \$209 million at June 30, 2025.

#### GREAT-WEST LIFECO INC. (LIFECO)

- Second quarter net earnings from continuing operations were \$894 million, compared with \$1,005 million in the second quarter of 2024. Adjusted net earnings from continuing operations<sup>7</sup> were \$1,149 million, compared with \$1,038 million in the second quarter of 2024.
- Adjusted net earnings from continuing operations increased 11% from the second quarter of 2024, reflecting double-digit growth in Lifeco's Wealth and Group Benefits businesses. Second quarter net earnings from continuing operations primarily reflect higher charges from previously announced business transformation initiatives and unfavourable market experience.
- Lifeco announced its intention to purchase an additional \$500 million of its common shares under its existing Normal Course Issuer Bid (NCIB), increasing the total in fiscal 2025 to \$1 billion<sup>8</sup>.

#### IGM FINANCIAL INC. (IGM)

- Second quarter net earnings were \$246.7 million, compared with \$216.2 million in the second quarter of 2024. Adjusted net earnings<sup>3</sup> were \$252.7 million, compared with \$220.4 million in the second quarter of 2024.
- Adjusted net earnings increased 15% from the second quarter of 2024, reflecting strong results across IGM's core operating companies and strategic investments.
- Record high assets under management and advisement<sup>5</sup> of \$283.9 billion, represented an increase of 3.2% from the first quarter of 2025 and 12.5% from June 30, 2024.
- Assets under management and advisement including strategic investments<sup>5</sup> were \$521.1 billion at June 30, 2025, compared with \$503.6 billion at March 31, 2025 and \$431.7 billion at June 30, 2024.

#### GROUPE BRUXELLES LAMBERT (GBL)

- GBL reported a net asset value<sup>5</sup> of €14.4 billion or €107.75 per share at June 30, 2025, compared with €15.7 billion or €113.30 per share at December 31, 2024.
- GBL completed a total of €170 million of share buybacks at June 30, 2025, and cancelled 5.2 million treasury shares.

#### SAGARD HOLDINGS INC. (SAGARD) AND POWER SUSTAINABLE CAPITAL INC. (POWER SUSTAINABLE)

- Sagard raised US\$1.5 billion in new commitments<sup>9</sup> in the second quarter of 2025, including US\$0.6 billion raised at Sagard's subsidiary, Performance Equity Management.
- In the second quarter, the Corporation received cash proceeds of \$262 million from the sale of wind projects, representing 425 MW<sup>10</sup>, to the Power Sustainable Energy Infrastructure Partnership (PSEIP). The projects were developed by Potentia Renewables Inc., a wholly owned subsidiary of the Corporation.

1 Attributable to participating shareholders.

2 All per share amounts are per participating share of the Corporation.

3 Adjusted net earnings from continuing operations, adjusted net earnings reported by IGM and adjusted net asset value are non-IFRS financial measures. Adjusted net earnings from continuing operations per share and adjusted net asset value per share are non-IFRS ratios. Refer to the Non-IFRS Financial Measures section later in this news release.

4 In 2024, the Corporation modified the definition of adjusted net earnings. Refer to the section Non-IFRS Financial Measures later in this news release. The comparative periods have been restated to reflect these changes.

5 Refer to the Other Measures section later in this news release.

6 IGM classifies its investment in Wealthsimple as fair value through other comprehensive income (FVOCI); as such there is no impact on net earnings. The Corporation controls and consolidates Wealthsimple; therefore, the increase in fair value is not reflected in net earnings.

7 Defined as "base earnings" by Lifeco, a non-IFRS financial measure; refer to the Non-IFRS Financial Measures section later in this news release.

8 In addition to the purchases made to offset dilution under Lifeco's share compensation plans. Subject to market conditions, applicable regulatory approvals, Lifeco's ability to effect the purchases on a prudent basis, and other strategic opportunities emerging.

9 Includes commitments from the Corporation, associated companies and third parties, as well as commitments raised in continuation funds.

10 Capacity of utility-scale renewable energy projects, measured in megawatts (MW).

## Second Quarter

Net earnings from continuing operations attributable to participating shareholders were \$772 million or \$1.20 per share, compared with \$730 million or \$1.12 per share in 2024.

Adjusted net earnings from continuing operations attributable to participating shareholders<sup>1</sup> were \$883 million or \$1.38 per share, compared with \$739 million or \$1.14 per share in 2024.

Net earnings attributable to participating shareholders were \$772 million or \$1.20 per share, compared with \$730 million or \$1.12 per share in 2024.

Adjustments in the second quarter of 2025, excluded from adjusted net earnings from continuing operations, were a negative net impact to earnings of \$111 million or \$0.18 per share, mainly comprised of the Corporation's share of Adjustments of:

- Lifeco of negative \$168 million, mainly related to business transformation impacts which include a restructuring charge recognized in the second quarter;

Partially offset by:

- IGM of positive \$8 million, mainly related to the effect of consolidation which includes a realized gain, recognized on the sale of a corporate investment classified by IGM as FVOCI, reflecting the application of the Corporation's accounting method for investments under common ownership; and
- Power Sustainable of positive \$49 million, mainly related to a recovery on the revaluation of non-controlling interests (NCI) liabilities within the Power Sustainable Energy Infrastructure Partnership, due to a decrease in the fair value of projects held within the fund, and other market-related impacts.

In the second quarter of 2024, Adjustments were a negative net impact to earnings of \$9 million or \$0.02 per share, mainly related to the Corporation's share of Adjustments of Lifeco, partially offset by the Corporation's share of Adjustments of Standalone businesses.

## Sagard and Power Sustainable

Results for the quarter ended June 30, 2025

Sagard and Power Sustainable comprise the results of the Corporation's alternative asset investment platforms, which includes income earned from asset management and investing activities. Asset management activities includes fee-related earnings (a non-IFRS financial measure, see the Non-IFRS Financial Measures section later in this news release), which is comprised of management fees and fee-related performance revenues less investment platform expenses. Asset management activities also includes carried interest and income from other management activities. Investing activities comprises income earned on the capital invested by the Corporation (proprietary capital) in the investment funds managed by each platform and the share of earnings (losses) of controlled and consolidated subsidiaries held within the alternative asset investment platforms. For additional information, refer to the table later in this news release.

### Second Quarter

Net earnings of the alternative asset investment platforms were \$142 million, compared with a net loss of \$5 million in 2024. The adjusted net earnings of the alternative asset investment platforms were \$93 million, compared with an adjusted net loss of \$1 million in 2024.

The adjusted net earnings are comprised of:

- A positive contribution of \$106 million from Sagard comprised of a positive contribution of \$8 million from asset management activities and a positive contribution of \$98 million from investing activities, mainly related to fair value changes in the private equity portfolio; and

## BASIS OF PRESENTATION

The condensed consolidated interim financial statements of the Corporation have been prepared in accordance with International Financial Reporting Standards (IFRS) unless otherwise noted and are the basis for the figures presented in this news release, unless otherwise noted.

## NON-IFRS FINANCIAL MEASURES

Net earnings from continuing operations attributable to participating shareholders are comprised of:

- Adjusted net earnings from continuing operations (adjusted net earnings) attributable to participating shareholders; and
- Adjustments, which include the after-tax impact of any item that in management's judgment, including those identified by management of Lifeco and IGM, would make the period-over-period comparison of results from operations less meaningful. Includes the Corporation's share of Lifeco's impact of market-related impacts, where actual market returns in the current period are different than longer-term expected returns; assumption changes and management actions that impact the measurement of assets and liabilities; direct equity and interest rate impacts on the measurement of surplus assets and liabilities; and amortization of acquisition-related finite life intangible assets, as well as items that management believes are not indicative of the underlying business results which include those identified by management of a subsidiary or a jointly controlled corporation, including: business transformation impacts (including restructuring or reorganization and integration costs, acquisition and divestiture costs); material legal settlements; material impairment charges; material impacts of the remeasurement of deferred tax assets and liabilities including those as a result of income tax rate changes, and other tax impairments; certain non-recurring material items, net gains, losses or costs related to the disposition or acquisition of a business, including those related to an investment in an associate or jointly controlled corporation; impacts related to remeasurements due to market changes that result in an accounting mismatch including the remeasurement of derivatives where the hedged item is not also measured at fair value and hedge accounting is not applied, and the revaluation of redemption liabilities, share warrants and conversion options on convertible and exchangeable debt obligations; the impact of the revaluation of non-controlling interests liabilities related to PSEIP which result from changes in fair value of assets held within the fund, and the share of earnings (losses) from the consolidated activities of PSEIP attributable to third-party investors; and other items that, when removed, assist in explaining underlying operating performance.

Adjusted net earnings from continuing operations (or adjusted net earnings) represents net earnings from continuing operations excluding Adjustments. In 2024, the Corporation modified the definition of adjusted net earnings, a non-IFRS earnings measure, to better reflect the underlying performance of the Corporation. Effective the fourth quarter of 2024, the definition of Adjustments was modified to include the impacts from applying the definition of Adjustments to the net earnings disclosed by GBL, the results of the Corporation's investing activities and the standalone businesses. The definition was also expanded to include impacts related to remeasurements due to market changes that result in an accounting mismatch. The comparative periods have been restated to conform with the current definition.

Management uses these financial measures in its presentation and analysis of the financial performance of Power Corporation, and believes that they provide additional meaningful information to readers in their analysis of the results of the Corporation. Adjusted net earnings, as defined by the Corporation, assists the reader in the comparison of the current period's results to those of previous periods as it reflects management's view of the operating performance of the Corporation and its subsidiaries, excluding items that are not considered to be part of the underlying business results.

Fee-related earnings is presented for Sagard and Power Sustainable and includes management fees and fee-related performance revenues earned across all asset classes, less investment platform expenses which include i) fee-related compensation including salary, bonus, and benefits, and ii) operating expenses. Fee-related performance revenues represents the realized portion of performance revenues from perpetual capital vehicles that are i) measured and expected to be received on a recurring basis, ii) not dependent on realization events from underlying investments, and iii) not subject to clawback. Fee-related earnings is presented on a gross pre-tax basis, including non-controlling interests. Fee-related earnings excludes i) share-based compensation expenses, ii) amortization of acquisition-related finite life intangible assets, iii) foreign exchange-related gains and losses, iv) net interest, and v) other items that in management's judgment are not indicative of underlying operating performance of the alternative asset investment platforms, which include restructuring costs, transaction and integration costs related to business acquisitions and certain non-recurring material items. Management uses this measure to assess the profitability of the asset management activities of the alternative asset investment platforms. This financial measure provides insight as to whether recurring revenues from management fees and fee-related performance revenues, which are not based on future realization events, are sufficient to cover associated operating expenses.

Adjusted net asset value is commonly used by holding companies to assess their value. Adjusted net asset value represents the fair value of the participating shareholders' equity of Power Corporation. Adjusted net asset value is calculated as the fair value of the assets of the combined Power Corporation and Power Financial holding company less their net debt and preferred shares. The investments held in public entities (including Lifeco, IGM and GBL) are measured at their market value and investments in private entities and investment funds are measured at management's estimate of fair value. The definition of adjusted net asset value involves a number of assumptions, judgments and estimates that may prove to be inaccurate, and the adjusted net asset value per share is not a representation or guarantee of the value a participating shareholder will be able to realize. This measure presents the fair value of the participating shareholders' equity of the holding company, and assists the reader in determining or comparing the fair value of investments held by the holding company or its overall fair value.

Adjusted net earnings attributable to participating shareholders, fee-related earnings, adjusted net asset value, gross asset value, adjusted net earnings from continuing operations per share (adjusted net earnings per share) and adjusted net asset value per share are non-IFRS financial measures and ratios that do not have a standard meaning and may not be comparable to similar measures used by other entities.

## Presentation of Holding Company Activities

The Corporation's reportable segments include Lifeco, IGM and GBL, which represent the Corporation's investments in publicly traded operating companies, as well as the holding company. These reportable segments, in addition to the asset management activities, reflect Power Corporation's management structure and internal financial reporting. The Corporation evaluates its performance based on the operating segment's contribution to earnings.

The holding company comprises the corporate activities of the Corporation and Power Financial, on a combined basis, and presents the investment activities of the Corporation. The investment activities of the holding company, including the investments in Lifeco, IGM and controlled entities within the alternative asset investment platforms, are presented using the equity method. The holding company activities present the holding company's assets and liabilities, including cash, investments, debentures and non-participating shares. The discussions included in the sections Financial Position and Cash Flows of the Corporation's most recent MD&A present the segmented balance sheets and cash flow statements of the holding company, which are presented in Note 20 of the Interim Consolidated Financial Statements. This presentation is useful to the reader as it presents the holding company's (parent) results separately from the results of its consolidated operating subsidiaries.

1 As reported by Lifeco and IGM.

2 Business transformation impacts include restructuring and integration costs as well as acquisition and divestiture costs.

3 The Effect of consolidation reflects: i) the elimination of intercompany transactions; and ii) the application of the Corporation's accounting method for investments under common ownership to the Adjustments reported by Lifeco and IGM, including a realized gain recognized by IGM in the second quarter of 2025 on the sale of a portion of its interest in Conquest Planning Inc., a corporate investment classified by IGM as FVOCI.

**Adjusted net asset value**

Adjusted net asset value represents management's estimate of the fair value of the participating shareholders' equity of the Corporation. Adjusted net asset value is calculated as the fair value of the assets of the combined Power Corporation and Power Financial holding company less their net debt and preferred shares. The Corporation's adjusted net asset value per share is presented on a look-through basis.

The following table presents a reconciliation of the participating shareholders' equity reported in accordance with IFRS to the adjusted net asset value, a non-IFRS financial measure:

## Lifeco

### Adjusted net earnings (loss) from continuing operations attributable to Lifeco's common shareholders

Adjusted net earnings (loss) from continuing operations<sup>1</sup> (adjusted net earnings (loss)) reflects Lifeco management's view of the underlying business performance of Lifeco and provides an alternate measure to understand the underlying business performance compared with IFRS net earnings. Adjusted net earnings (loss) excludes the following items from IFRS-reported net earnings:

- Market-related impacts, where actual market returns in the current period are different than longer-term expected returns;
- Assumption changes and management actions that impact the measurement of assets and liabilities;
- Business transformation impacts which include acquisition and divestiture costs and restructuring and integration costs;
- Material legal settlements, material impairment charges related to goodwill and intangible assets, impacts of income tax rate changes on the remeasurement of deferred tax assets and liabilities and other tax impairments, net gains, losses or costs related to the disposition or acquisition of a business, and net earnings (loss) from discontinued operations;
- The direct equity and interest rate impacts on the measurement of surplus assets and liabilities;
- Amortization of acquisition-related finite life intangible assets; and
- Other items that, when removed, assist in explaining Lifeco's underlying business performance.

3 Described as "items excluded from base earnings" by Lifeco.

4 Business transformation impacts include restructuring and integration costs as well as acquisition and divestiture costs.

## IGM Financial

### Adjusted net earnings attributable to IGM's common shareholders

Adjusted net earnings attributable to common shareholders excludes Adjustments, which includes the after-tax impact of any item that management of IGM considers to be of a non-recurring nature, or that could make the period-over-period comparison of results from operations less meaningful. Effective in the first quarter of 2024, adjusted net earnings also excludes IGM's proportionate share of items that Lifeco excludes from its IFRS-reported net earnings in arriving at Lifeco's base earnings.

## FORWARD-LOOKING STATEMENTS

Certain statements in this news release, other than statements of historical fact, are forward-looking statements based on certain assumptions and reflect the Corporation's current expectations, or with respect to disclosure regarding the Corporation's public subsidiaries, reflect such subsidiaries' disclosed current expectations. Forward-looking statements are provided for the purposes of assisting the reader in understanding the Corporation's financial performance, financial position and cash flows as at and for the periods ended on certain dates and to present information about management's current expectations and plans relating to the future, and the reader is cautioned that such statements may not be appropriate for other purposes. These statements may include, without limitation, statements regarding the operations, business, financial condition, expected financial results, performance, prospects, opportunities, priorities, targets, goals, ongoing objectives, strategies and outlook of the Corporation and its subsidiaries, and capital commitments to strategies of the investment platforms. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "plans", "believes", "estimates", "seeks", "intends", "targets", "projects", "forecasts" or negative versions thereof and other similar expressions, or future or conditional verbs such as "may", "will", "should", "would" and "could".

By its nature, this information is subject to inherent risks and uncertainties that may be general or specific and which give rise to the possibility that expectations, forecasts, predictions, projections or conclusions will not prove to be accurate, that assumptions may not be correct and that objectives, strategic goals and priorities will not be achieved. A variety of factors, many of which are beyond the Corporation's and its subsidiaries' control, affect the operations, performance and results of the Corporation and its subsidiaries and their businesses, and could cause actual results to differ materially from current expectations of estimated or anticipated events or results. These factors include, but are not limited to: the impact or unanticipated impact of general economic, political and market factors in North America and internationally, fluctuations in interest rates, inflation and foreign exchange rates, monetary policies, business investment and the health of local and global equity and capital markets, management of market liquidity and funding risks, risks related to investments in private companies and illiquid securities, risks associated with financial instruments, changes in accounting policies and methods used to report financial condition (including uncertainties associated with significant judgments, estimates and assumptions), the effect of applying future accounting changes, business competition, operational and reputational risks, technological changes, cybersecurity risks, changes in government administrations, regulation, legislation and policies, changes in tax laws, the impact of trade relations and ongoing trade tensions, including the threat of tariffs and other governmental actions, as well as retaliatory actions, unexpected judicial or regulatory proceedings, catastrophic events, man-made disasters, terrorist attacks, wars and other conflicts, or an outbreak of a public health pandemic or other public health crises, the Corporation's and its subsidiaries' ability to complete strategic transactions, integrate acquisitions and implement other growth strategies, the Corporation's and its subsidiaries' success in anticipating and managing the foregoing factors and with respect to forward-looking statements of the Corporation's subsidiaries disclosed in this news release, the factors identified by such subsidiaries in their respective MD&A.

The reader is cautioned to consider these and other factors, uncertainties and potential events carefully and not to put undue reliance on forward-looking statements. Information contained in forward-looking statements is based upon certain material assumptions that were applied in drawing a conclusion or making a forecast or projection, including management's perceptions of historical trends, current conditions and expected future developments, and that strategic transactions, acquisitions, divestitures or other growth or optimization strategies will be completed on expected terms, including that any required

approvals will be received when and on such terms as are expected, as well as other considerations that are believed to be appropriate in the circumstances, including that the list of risks and uncertainties in the previous paragraph, collectively, are not expected to have a material impact on the Corporation and with respect to forward-looking statements of the Corporation's subsidiaries disclosed in this news release, that the risks identified by such subsidiaries in their respective MD&A and Annual Information Form are not expected to have a material impact on the Corporation. While the Corporation considers these assumptions to be reasonable based on information currently available to management, they may prove to be incorrect.

Other than as specifically required by applicable Canadian law, the Corporation undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made, or to reflect the occurrence of unanticipated events, whether as a result of new information, future events or results, or otherwise.

Additional information about the risks and uncertainties of the Corporation's business and material factors or assumptions on which information contained in forward-looking statements is based is provided in its disclosure materials, including its most recent annual MD&A and subsequent interim MD&A and Annual Information Form, filed with the securities regulatory authorities in Canada and available at [www.sedarplus.ca](http://www.sedarplus.ca).
